Delta College Board of Trustees Meeting  
6:30 pm in the Boardroom

#### May 15, 2008

Citizens' Oversight Committee Meeting  
5:30 pm in the Boardroom

### Parking & Traffic Flow

As construction on campus continues different parking areas and roadways will be affected. We will keep you informed of lot and road closures, and provide timely information when specific alternatives are available. It has been well known that the exciting changes happening on campus will affect parking. In an effort to understand and lessen effects, the district completed a comprehensive report. The report identifies potential issues and is intended to be a useful tool for mitigation efforts.

The parking report can be viewed in the Public Information Office:  
Horton Administration Building, Room 208.

### Parking Lot Closure - Cunningham 1 will be Closed for Upcoming Construction

Starting April 1, 2008, the Cunningham 1 (C1) parking lot will be closed. A portion of this area will become the site of the new Student Services Building. The lot will reopen when construction on the Student Services Building is completed. Please refer to the map below for the location of the closed lot (shaded area in the northeast quadrant), and to make note of alternate parking that best meets your needs. Alternate spots for those with disabilities are also noted below (lots C6, S1, B1, H1, H2, L4, and L5).

The Child Development Center will remain accessible for pick-up and drop-off. The access route is indicated by the green line along the southern edge of the C1 lot.
