

SAN JOAQUIN DELTA COLLEGE

Partial Parking Lot Closures in Cunningham 4 (C4) and Holt 1 (H1); Off-Site Parking to be Discontinued

C4 - September 12, 2008 through September 26, 2008

H1 - October, 2008 through March, 2010

Off-site parking at Circuit City will be eliminated in October

A portion of the C4 parking lot will be unavailable beginning Friday, September 12, 2007 for approximately two weeks. This is necessary in order to re-route the main gas line that fuels the Central Plant. There will also be a partial closure of the Holt 1 parking lot beginning in October. A portion of the lot will be fenced off and used as a staging area for equipment and supplies in support of the Goleman renovation project. This closure will last approximately 18 months.

The parking situation is being monitored daily. Routine early semester enrollment decline and increasing ridership on mass transit have eased the situation considerably. Accordingly, in early October, the off-site parking arrangement will be discontinued. Current trends indicate that there will be sufficient on-site parking at that time. We will re-initiate the off-site parking arrangement in the beginning of the Spring semester.

When choosing alternate parking that best meets your needs please remember that the C1 and C6 lots are also closed due to construction.

Thank you for your flexibility during this process and as always your patience is greatly appreciated.
