

San Joaquin Delta College

# PHYSICAL EDUCATION RECREATION AND ATHLETICS (PERA)

Measure L has allowed for the much needed transformation of the Baseball, Football and Track & Field Facilities at San Joaquin Delta College. This key renovation included the installation of artificial surfaces for the baseball, football and softball fields as well as the running track. Additionally the soccer and softball fields have been relocated and reoriented in order to allow the PERA complex maximum efficiency and allow for improved accessibility to a centralized entrance and parking area.
